

MODE

KS1460 SERIES GAS FIREPLACES

## Unconventional by nature.

Uncommon, unconventional, and unexpected,  
MODE takes gas fireplace design to a bold new place.

With a seamless blend of high-performance heat, bold  
shapes and a sleek, refined aesthetic, MODE fireplaces  
deliver an uncompromised flame experience.

Designed, engineered, and crafted in New Zealand,  
every MODE masterpiece showcases the most advanced  
fireplace technology to allow unlimited creativity.

## More than just fire.

Wider, taller, and deeper than you've imagined, the KS1460 Series gives you more. More flame, more authenticity, more to see, and ultimately, more to talk about.

### World-class innovation allowing complete design freedom.

MODE's Flexible Flue Technology and Zero Clearance rating removes traditional design limitations to allow unlimited creativity. Install a MODE fireplace almost anywhere in the home and choose from a wider range of surround materials.

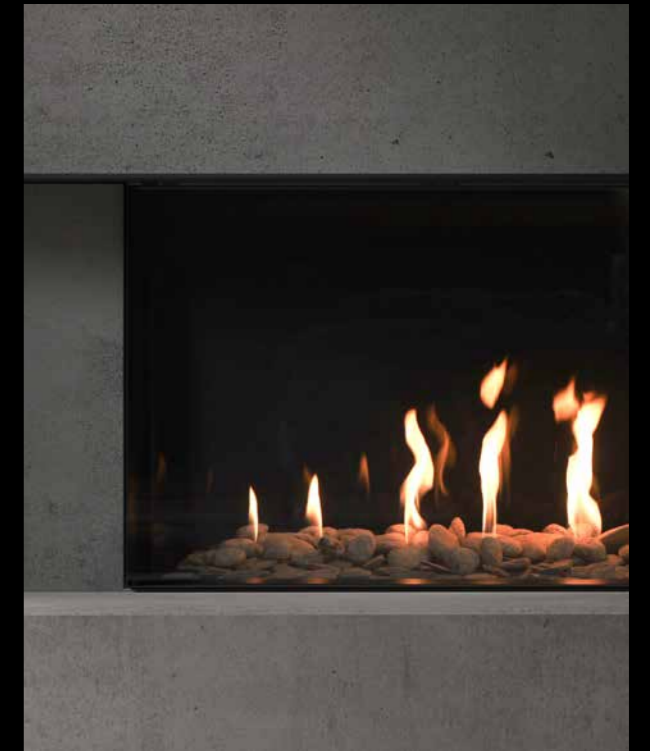

### Expansive, refined design for uninterrupted flame-viewing.

A striking balance of maximised glass and minimalised detail ensures the KS1460 becomes the hero in any home. Its bold footprint, expansive windows, generous flames, and refined design combine to deliver a truly uncompromising fireplace experience.

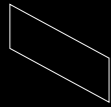

### Full control with smartphone app and touchscreen remote.

Take full control of your MODE fireplace from your smartphone with the intuitive SmartHeat App, or from MODE's slimline touchscreen remote.

### Bead Burner Technology for enhanced natural flames.

Enhanced flame technology mimics a more natural environment, resulting in a lazy, seductive choreography of flame. Indulge in more height, depth, and richer flame experience to immerse yourself in.

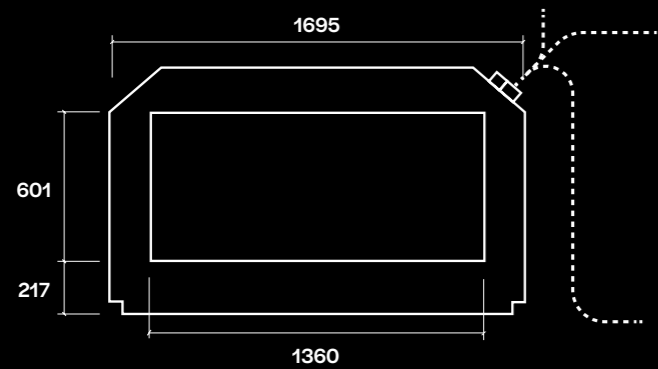

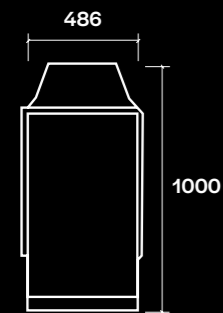

## KS1460 Single Sided

An expansive window with seamless joins and a refined minimalist aesthetic, the KS1460 Single Sided Fireplace is more like art than fire.

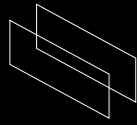

Lose yourself in the seductive 'lazy' flames, enhanced by ceramic black glass and increased depth – for an authentic, mesmerising experience.

## KS1460 Corner

Transforming overlooked corners into intimate spaces, the KS1460 Corner Fireplace wraps around the left or right side of a wall, sharing the uncompromised beauty of flame with both sides of the room.

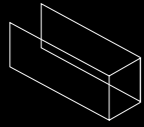

Its contemporary corner design is a subtle way to create a bold statement, or serve as a seamless transition between spaces – giving your room the edge, literally.

### Specifications

Heat Output	<b>8.6kW</b>
Viewable Fire Size	<b>1405w x 601h x 431d</b>
Appliance Size <small>incl. KWU</small>	<b>1875w x 1200h x 490d</b>
